

DREAMSCAPE

Sermon Discussion Guide

Part 3 - Pastor Rob Ketterling

Let's Recap:

God wants to speak to us. In the Bible we see that many times He spoke to people in their dreams. Maybe God is trying to use your dreams to speak to you. This week we're wrapping up the series by talking about the many ways God speaks to us and how to be ready to listen and interpret His voice.

Tune In:

In preparation for this week's discussion, read Daniel 2:1-28, Jeremiah 33:3

Go Deep:

1. How have the last few weeks of this series impacted the way you view God and how He communicates with us?
2. God speaks to us in many different ways. Maybe He spoke to you in a dream, a small voice, through prophecy, or the Bible. Take a moment to share your story.
3. Hearing from God might be brand new to some people in our church and in our lives outside of the church. How would you encourage someone to begin listening for God's voice regularly?

Live Out:

Above all else, God wants to have relationship with us. In our lives its often easy for us to go to other people or resources for guidance when we should be going to God first and foremost. Let's be aware of His presence, and how He wants to speak to us. It could be as easy as taking a moment each day to say, "I'm here God. Speak to me, I'm listening." Let's always keep our day to day, minute by minute relationship with Him as our first priority.
