

## Scientific and Spiritual Views of Gravity

Pastor Rob Ketterling, Dr. Richard Hammar & Dr. Jim Bradford

### Key Points:

- To create lift spiritually you need a fuel (God's word) and an oxidizer (The Holy Spirit)
- Confession and repentance converts potential energy into realized energy
- Without gravity we wouldn't grow properly, the struggle makes us stronger
- Newton's 3<sup>rd</sup> Law + (For every action there is an equal and more powerful spiritual reaction)
- The gravity of our sin brought Jesus down to earth

### Main Scripture Reference(s):

- Colossians 1 - Romans 1 - Romans 8 :28

### Discussion Questions:

1. What did you think of this weekend's message? Was it insightful?
2. Dr. Hammar shared that a tiny magnet can offset all of the earth's gravity. Did that put a new perspective on God's ability to overcome the gravity of your situation?
3. How has God's word and the Holy Spirit given you spiritual lift? Which one do you need more of right now to go higher?
4. Are there any roadblocks of repentance, confession, or needing to be real that can take your potential energy and convert it into realized energy?
5. Look back to what Dr. Bradford coined as Newton's 3<sup>rd</sup> Law + and read Romans 8:28. How can we move from "All Things" to "God Works"?
6. The gravity of our sin brought Jesus down to earth. How does that impact your view of what Jesus has done for you?
